Lisa Schuh
CITY SUPERINTENDENT:
Stan Meier
CLERK/TREASURER:
Jennifer Ehlenfeldt

Dear Buffalo City Resident,

Land ownership and uses in the City have changed rapidly over the past twenty years. Your City Council is not looking at this change as negative, but rather as a chance to look ahead and plan for the future. Your input is needed to develop a land use plan that reflects the needs and desires of residents of Buffalo City.

A land use plan is **not** a zoning law or a set of rules that governs your property treatment. It is a plan that incorporates the goals and values of residents in the City. Your input is vital for an effective and meaningful land use plan to be developed. I would like you to take a few minutes to complete the enclosed survey. All information will be kept confidential and information will only be made available in compiled form. **Please complete the survey and return by January 7, 2013.**

I strongly encourage you to add any comments that you have concerning Buffalo City. Write them in the comment section or in the margins. A group of residents will discuss the compiled results and assist in developing a draft plan. This plan will be discussed during public meetings. Ultimately, a comprehensive Buffalo City land use plan will be developed based on your input.

Thank you in advance for taking the time to complete the survey. Please feel free to contact the City Clerk by phone at (608) 248-2262 or email at bcclerk@mwt.net.

Once again, thank you for your cooperation.

Sincerely,

Daniel Wicka
Mayor, City of Buffalo City
